The British Columbian.

NEW WESTMINSTER, SATURDAY, MAY 14, 1864.
THE HISTORY AND POSITION OF PARTIES AND POLITICS.

The people of British Columbia, as a whole, are not politicians. They are enterprising, working men, who are too deeply absorbed in pursuing their various avocations to give very much of their attention to politics. This is more or less the case in all new Colonies; but perhaps more especially so in a gold-producing country. One half of the people are content to leave the direction of public affairs in the hands of the other half provided they have in return the right to pursue, undisturbed, the acquisition of wealth. Thus it is that the people of New Westminster have, by the ever active party they have taken in all the political questions of the day, acquired a reputation as politicians, and become the target for the enemy to fire off their malignant darts at. Hence the opprobrious epithets, "small and influential clique," "discontented agitators," "political demagogues," &c., which have been so incessantly and unparaphrasedly heaped upon them by the people of Victoria. We confess that this city has, to a great extent, been the political theatre of the Colony—that beyond the precincts of the embryo capital no very active part has been taken in the public questions of the time. It may not be altogether an unfitting time to take a glance at the past and present, and, perhaps, indulge ourselves in a peep into the future—a thing which Editors are peculiarly addicted to. In using the term New Westminster in a political sense we would not be understood to imply that there have not been two parties even here. But so small has been the opposition that the unanimity with which the people have acted in all our great political movements has long since passed into a proverb. It is not altogether surprising, therefore, however untrue it may be, that the people of New Westminster should have been charged with arrogating to themselves the right to speak and act for the whole Colony; nor is it to be wondered at that an unscrupulous enemy should say all that has been said about this community. Happily for us we find ourselves just now in a peculiarly favorable position for vindicating the New Westminster politicians and exposing the utter falsity of the slanders which have been so unparaphrasedly heaped upon them by a Victoria clique.

To enumerate all the political movements in which the people of this city have acted a conspicuous part would be too much for one article, as they are legion; but it may not be amiss to indicate a few of the most prominent. The first organized movement was the Reform League, established early in 1859. The leading features of this organization were a demand for a change in the land system by which settlers might at once get possession of land for actual use on reasonable terms, as at that time no one was allowed to occupy land without first obtaining the special permission of the Governor, and the price was one pound sterling an acre; the opening up of roads to the interior of the Colony and a protest against the officials of this Colony residing in Vancouver Island. The happy fruits of that movement the Colony as a whole have been enjoying for some time. The Governor made representations to the Colonial office, which led to the reduction of wild lands from one pound to four shillings and two pence per acre, and the granting of a pre-emption system, which, with all its imperfections, is such an immense improvement upon the old system that it was received with gratitude, and has unquestionably proved a very great boon to the Colony. As to the second point—the construction of roads through the Colony—although His Excellency vacillated for some time it is well known that he finally plunged headlong into road-making; and although many of these roads were made at hazard and turned out to be in the wrong place, yet the most ultra opponent is forced to award to Sir James Douglas a meed of praise for the energy—if even in some instances unwisely directed—with which he undertook road-making enterprises which would have appalled a man of less nerve. The results of the agitation against absentee officials, from the Governor down, initiated by the Reform League early in '59 and kept up with more or less spirit ever since, are known to all. Although it was a long fight as well as a hard one the fact that we have to-day a resi-

BENSON'S WATCHES AND CLOCKS.

WATCH AND CLOCK MAKER, BY SPECIAL APPOINTMENT, TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.
"As a sample of English clock-work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfect or carefully adjusted mechanism."—*Times*, June 11, 1862.
"A triumph of ingenuity."—*Tatler*, March 31, 1862.
"A more splendid and exquisite piece of mechanism we have never seen."—*Standard*, June 17, 1862.
"Some of them are of great beauty; and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—*Times*, June 23, 1862.
"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—*Illustrated London News*, November 8, 1862.

REPEATED

Westminster. March 3, 1863. ma4

We were amused by the perusal of a leader in the *Evening Express*—the organ of James' Bay clique—devoted to the consideration of Governor Seymour's speech. The writer, whoever he is, sets out with the assertion that the Council was prorogued none too soon, judging by some of the measures passed by that body. It is not surprising that the party of whom the paper in question is the mouthpiece should take exception to some of those measures; but they should remember that the body in question legislate for this Colony, not Vancouver Island—seek to carry out the views of the people of British Columbia, not the people of Victoria. The article goes on to disparage the Council, and makes the assertion that "the British subjects in British Columbia have not returned the men who claim to be the people's nominees," and reiterates the statement that they do not in any way represent the British element. So far as this district is concerned we beg to assure our contemporary that none but British subjects took any part in the election; and we are assured that in the elections in the interior the foreigners, with their usual good taste, stood aloof, although not debarred from voting; so that the above assertion is quite unwarranted by the circumstances. It is not difficult, however, to see where the shoe pinches. The anti-union resolution is the real grievance, and a most unwarrantable attack is made upon the Governor for expressing an opinion upon that subject "after only a fortnight's sojourn in the Colony." We venture to state our conviction that Governor Seymour knew more about this Colony before he set foot upon its soil—to say nothing of what information a shrewd and experienced statesman would pick up in the course of a fortnight—than the sapient Editor of the *Express* yet knows or, indeed, is likely ever to know about it. And, moreover, we opine His Excellency will get on without the obtruded dictum of our Island contemporary. The *Colonist* also devotes a leader to the same subject; but it is of a very different character, and is, like many other leaders which have recently appeared in that journal, ably written, and takes a liberal and sensible view of the whole matter. But there is one passage in this article which is a little amusing and affords another illustration of the power of habit. In reference to His Excellency's intimation that he may possibly anticipate the loan by applying monies set apart for other purposes to the opening up of roads to the mines our contemporary says: "Much, however, as we admire the earnestness which Governor Seymour evinces in the construction of roads, we should regret exceedingly that monies voted for specific purposes should be diverted from these objects and applied to others, however important." The fact is the people of Victoria have become so accustomed to think, speak and write about this Colony as though it were their own that they cannot easily give it up now; and we must not be surprised if they forget themselves occasionally.

THE BUTE MASSACRE.

Surveyor-General Trufch and Mr. Waddington came up by the steamer last night on business with Governor Seymour respecting this terrible massacre. We hope the two Governments will unite in dealing out speedy justice, at whatever cost, to these sixteen devils done up in red skins. We don't want another Kagsima affair—no indiscriminate slaughter—for that would not mend, but aggravate, the matter. Let the guilty parties be hunted up if they should cost the country ten thousand dollars a head, and let them be made an example of to the native population, such as will not readily be forgotten. In this matter promptitude is everything. Let the fleet be ordered at once to the Inlet and let Volunteer Rifle Corps burn for action—why not send them? Well planned and prompt action now may save much trouble in future. The country will look for it at the hands of both Governments—the blood of the fourteen butchered men, all of them British subjects save one, demands it!

As we are going to press we learn that the Governor, with the most praiseworthy promptitude, dispatched the steamer *Enterprise* at 3 o'clock this morning to Victoria, with orders for the ship-of-war *Tribune* and a gunboat to come up here immediately. They may be expected to arrive this evening and take from here whatever force it may be thought best to send round to the Inlet.

THE DOUGLAS-LILLOOET ADDRESS.—In another column will be found this address, with His Excellency's reply. While fully sympathizing with the people of that district in respect to the marked neglect shown them during the more recent part of the late administration, yet we question their taste in introducing local grievances into a congratulatory address to the Governor on his arrival in the Colony. It is rather out of place and cannot but be embarrassing to His Excellency.

THE QUEEN'S BIRTHDAY.—It will be seen by a notice elsewhere that preparations will be made for celebrating the 24th with more than usual éclat. We hope our friends in the up-river towns will find it convenient to spend the day with us.

Indian Massacre at Bute Inlet!

FOURTEEN MEN MURDERED!

The Victoria papers brought up by the *Enterprise* last night contain an account of the murder by Indians of 14 out of a party of 17 men in the employ of Mr. Waddington. The Indians, who were employed to pack for the party, made an attack upon the men during the night while asleep, killing 14 and mutilating them in the most shocking manner. The three survivors were managed to effect their escape in the darkness. Two of them are badly wounded and have since been conveyed to Victoria Hospital. The red-skin demons are Chillicotees and plunder is supposed to have been the chief incentive. The following is a list of the names of the party as given by the *Chronicle*:

THE KILLED.
William Brewster, foreman, a Cornishman.
Joseph Fielding, Derbyshire, England.
James Openshaw, Lancashire, England.
Charles Butler, late of Boundary Commission has been a broker in Victoria.
James Campbell, Scotchman.
Timothy Smith, an Englishman.
John Newton, an Englishman.
John Clarke, an Englishman.
Baptiste Demarest, a French Canadian.
James Gaudet, a half-breed; father and brother in Victoria.
John Hoffmeyer, a Bavarian.
Robert Pollock, Scotchman, blacksmith.
George Smith, Scotchman.
SURVIVORS.
Edwin Mosely.
Peter Peterson.
Philip Buckley.

REMOVAL.—It having been rumored during the past few days that negotiations were in progress for the transfer of this establishment to a certain Victorian, at present in this city, we think it proper to state that, however happy we might be to deliver up the Editorial pen to one who would be likely to wield it with more ability and as much political integrity as we have done, it is not very likely that, with the flush of victory yet fresh upon our brow, we are going to surrender to the enemy ground so gallantly and so hardly won.

LOCAL IMPROVEMENTS.—We have lately been so much absorbed in politics as to lose sight to some extent of the material improvement going steadily on around us. It was, therefore, with some surprise that, while taking a constitutional walk yesterday morning, we stumbled upon a perfect palace, standing in the centre of a beautiful lawn on the north-eastern side of the Camp. This really beautiful house we found to be the residence of our enterprising fellow citizen Mr. J. T. Scott. It is of a mixed style of architecture, the Norman prevailing, is spacious and richly furnished, and, altogether, reminds one more of a gentleman's residence in the old country than anything we have seen in the Colony. Mr. J. C. White was the architect, and Mr. James Thompson the builder. We congratulate Mr. Scott upon possessing the finest residence in the Colony.

THE JAIL.—We understand His Excellency Governor Seymour visited this establishment on Thursday and took a look through the various departments. Whatever may be said as to the unsatisfactory and unpromising character of the buildings, we feel confident His Excellency could not but be struck with the admirable order in which the premises are kept. We consider the Governor of the Jail one of the most efficient and worst paid public officers the Colony possesses.

THE ROOKS.—We hear that these birds are committing extensive depredations upon gardens in the city and suburbs. It would be well for those given to that sort of amusement to shoot off these pests. The powder daily burned in the city to the injury of the nervous might be applied in that direction with advantage to the public.

CUSTOMS RECEIPTS for week ending 7th May, 1864: Duties, £1231 7 6; harbor dues, £33 4 10; head money, £43; tonnage dues, £147 6. Total, £1453 19 4. Number of passengers entering at this port during same period, 215.

GOING TO YALE.—We understand His Excellency Governor Seymour will go up to Yale today for the purpose of judging by personal observation of the necessity of certain work in that locality.

EXPORTS.—We understand Mr. J. O. Smith is shipping large quantities of lumber from his mill on Burrard Inlet, which meets a ready market in Victoria. The *Green* took a cargo last week and is back for another, while the *Flying Mill* left on Monday with a cargo of 81000 feet.

RISE IN THE FRASER.—The water in the river is rising rapidly, as indicated by the large amount of float wood passing down.

VICTORIA INCORPORATION BILL.—This Bill has been thrown out of the Island Legislature—leaving the City Council in a most unsatisfactory position. We would advise the Legislature to advertise for some one able to draw up a Bill of Incorporation, as it would appear to be beyond their ability.

THE VANCOUVER GAZETTE.—We see by the *Colonist* that the contract for publishing the Government Gazette has been awarded to that office, and the first number is to make its appearance on Tuesday next.

Address from the People of Douglas-Lillooet District.

To His Excellency Frederick Seymour, Governor and Commander-in-Chief of the Colony of British Columbia and its Dependencies, &c., &c.

MAY IT PLEASE YOUR EXCELLENCY:—We, the inhabitants of the Town and District of Douglas, come with unfeigned loyalty and respect. It is with very great satisfaction that we hail the advent of a Governor to this Colony who will be enabled to give undivided attention to the promotion of its welfare.

A new era seems to dawn upon us, and whilst we hope for increase of prosperity in our progress henceforth as a Colony we would fondly anticipate for Your Excellency a reward in self approval and consequent happiness, commensurate with the good you may have effected by your efforts to forward the best interests of the land over which our Most Gracious Queen has chosen you to preside.

We cannot refrain from using this opportunity of addressing Your Excellency to call particularly to your attention the injustice with which we have been treated in regard to the moneys collected under the "Road Tolls Act, 1860," Oct 15th, from us, immediately to be expended for our benefit, and yet which have been applied elsewhere and for totally different purposes to those for which such toll was levied.

In regard to our most pressing requirements, the improvement of the Harrison River rapids and the channel leading into Douglas Bay, so as to give us uninterrupted navigation at all seasons, is one we deem of sufficient magnitude to press thus early upon the notice of Your Excellency. This is an object the benefit of which, if effected, would extend to the whole of the upper country, inasmuch as provisions, goods, etc., could be transported thither more expeditiously and at a cheaper rate than by any other route.

and 200 others with their residence and occupations attached.

HIS EXCELLENCY'S REPLY.
Sir,—I hope that you will convey to the inhabitants of the Town and District of Douglas my best thanks for the address you have been good enough to present on their behalf. I accept the expression of their loyalty with much satisfaction, and have to assure them that my undivided attention will be given to the promotion of the interests of British Columbia.

I hope soon to be able to visit the Town and District of Douglas and make personal acquaintance with many of the gentlemen who have thus kindly welcomed me to the Colony.

I will not diminish the pleasure I feel in acknowledging the receipt of the address from the people of Douglas by dwelling on the grievances with which it concludes. Let me, however, assure you that the subject alluded to shall have my most earnest consideration, and that I hope to do justice to the inhabitants of Douglas as well as to those of other portions of this extensive territory.

Address of the New Westminister Fire Department to His Excellency Governor Seymour.

A deputation consisting of Messrs. Richards, Scott, Hoyt, Johnston, Clarkson and Tilley waited upon His Excellency Governor Seymour at Government House on Wednesday and presented the address herewith annexed. The deputation were much gratified by the courteous and affable reception given them by His Excellency:—

To His Excellency Frederick Seymour, Governor and Commander-in-Chief of the Colony of British Columbia and its Dependencies, &c., &c., &c.
MAY IT PLEASE YOUR EXCELLENCY:—We the members of the New Westminister Fire Department desire to offer you our congratulations upon your safe arrival in this Colony.

We beg to express to your Excellency, as the representative of Her Most Gracious Majesty Queen Victoria, our loyalty and attachment to her person and Government.

We are a body of volunteers, as doubtless your Excellency is aware, organized for the purpose of protecting life and property in this city from the ravages of fire.

As yet there has been but little occasion for our services, but we hold ourselves in readiness that when the time arrives (may it be far distant) when those services will be required we may be enabled to render a disciplined resistance to the destroying element and thereby merit a continuance of the favor which has hitherto been bestowed upon us by the Government of this Colony.

The members of the Fire Department unanimously join in wishing your Excellency health and happiness, and that your efforts to promote the advancement of this important Colony may be crowned with success.

Signed in behalf of the Department:—
F. G. RICHARDS, Chief Engineer.
JOHN T. SCOTT, Captain of Hyack Co. No. 1
LEUCIES HOYT, 1st Lieutenant.
WILLIAM JOHNSTON, 2nd Lieutenant.
GEORGE R. ASHVELL, Treasurer.
GEORGE C. CLARKSON, Secretary.

HIS EXCELLENCY'S REPLY.

Gentlemen of the New Westminister Fire Department:—

I receive with much gratification the Address of congratulation which you have just presented me.

It is highly gratifying to me, as the representative here of our Sovereign, to find that you join in the expressions of loyalty which reach me from so many sides.

It shows great public spirit on your part to form a voluntary organization for the protection of life and property in the city of New Westminister; but while I do not doubt your efficiency, I sincerely trust that your services may be but seldom, if ever required. One of the most painful incidents of my life was the seeing, last year, six hundred houses in Belize, the seat of my former Government, destroyed by fire in one night, and two thousand persons suddenly left without habitations.

I thank you again for your address and also for the escort you were good enough to furnish me with, on the day of my installation as Governor.

Address of the Rifle Corps to Hon. C. Brew, &c., &c.

The following is a copy of the address presented to Mr. Brew, which was signed by the officers, non-commissioned officers and men of the Corps:—

To Charles Brew, Esq., M. L. C., &c., &c.
DEAR SIR:—We, the members of the New Westminister Rifle Volunteer Corps, beg to express our regret at your resigning the office of Captain of our Corps, and to give you our best thanks for the interest you have at all times shown in its formation and progress. We are well aware that to your instrumentality chiefly the Corps owes its present state of efficiency and harmony. We beg further to express our esteem for the readiness with which you have on occasions sacrificed your private feelings and convictions, when they seemed to be detrimental to the advancement of the Corps. Dear Sir, while expressing our feelings of regret at its parting, we cannot but rejoice at its cause, and sincerely hope that that cause, the assumption of more important, higher and more honorable duties, may not soon cease, while your future positions may enable you to add further to our advancement.

REPLY.

Gentlemen of the New Westminister Rifle Volunteers:—

I have received your kind and flattering address, and I have to return you thanks for the warm expressions of regard and esteem contained therein.

Though ever anxious for your improvement in organization and discipline I cannot allow that your present very creditable state is to be attributed to my exertions. It is far more due to your own intelligence, attention and zeal. I deeply regret that circumstances compelled me to resign the honor of commanding you; but though ceasing to belong to your Corps I shall always feel a deep interest in your success and welfare, and I trust that the same cordial goodwill which has hitherto existed between the members of your Corps will hereafter continue to be felt. Heartily wishing you future success, I remain, gentlemen,

Faithfully yours, C. BREW.

THE SUFFERER'S BEST FRIEND.
HOLLOWAY'S PILLS.

All Disorders affecting the Liver,
Stomach and Bowels.

These Pills can be confidently recommended as the
most simple and certain remedy for indigestion, flatu-
lency, acidity, heartburn, colic, constipation, and all the
many maladies resulting from disordered stomach or
bowels. If all diseases it is of primary importance to
set the stomach right. These Pills are purifiers, alter-
natives, and strengtheners of the stomach. They may
be taken under any circumstances. Though powerfully
tonic, and satisfactorily aperient, they are mild in their
operation, and beneficial to the whole system.

**Weakness and Debility, Nervous
Irritability.**

The wholesome effect exercised by these admirable
Pills over the blood and fluids generally is like a charm
in dispelling low spirits, and restoring cheerfulness.
Their general aperient quality will fit them for a domes-
tic medicine, particularly for females of all ages and
periods of life. They never betray any disagreeable
irritating qualities; they quickly eject all impurities
from the system, and regulate every function of the body,
giving wonderful tone and energy to weak and debili-
tated persons, while they brace and strengthen the ner-
vous system in a most extraordinary manner.

**To Regain Health, Strength and
Vigour.**

Whenever persons find themselves in that state term-
ed a "little out of health," and there are so many causes
at work to shorten life, it is necessary that Holo-
way's Pills, the finest purifier of the blood ever known,
should be at once taken, as they not only rid both solids
and fluids of all morbid matters, but regulate all disor-
dered actions, and strengthen the frame in a most ex-
traordinary manner.

**Old Coughs, Colds and Asthmatical
Affections.**

These Pills, assisted in their action by rubbing Holo-
way's Ointment very effectively twice a day upon the
throat and chest, and keeping those parts covered with
the preparation, will be found the most effectual reme-
dy for asthmatical coughs, colds, bronchitis, and influenza.
These remedies tranquilize the hurried breathing,
soothe the irritated air-tubes, and assist in dislodging
the phlegm which stops up the air-passages. This
treatment has proved wonderfully efficient in not only
curing old settled colds, but asthma of many years
standing, and even when patients who were in so bad a
state as not able to lie down on their beds lest they be
choked with phlegm.

**Derangement and Distention of the
Bowels, Flatulency Diarrhoea
and Dysentery.**

Any symptoms of the above complaints should be im-
mediately met by appropriate doses of these Pills, ac-
cording to the printed directions: delay may be fol-
lowed by disastrous consequences. These Pills are a
certain remedy for all the ailments of the alimentary
canal, they secure the thorough digestion of the food,
and act most kindly on the stomach, liver, bowels and
kidneys. As a household medicine they are unrivalled,
and should always be at hand.

**Very Important, of Costiveness
Beware.**

Rarely but little notice is taken of costiveness, yet,
at certain periods, it is a sure sign that danger is near.
All who are seized with spoplexy and paralysis, have
previously suffered from costiveness. In the former
case the blood flies to the head, a small vein is ruptured
on the brain, and we know the rest. Let wives coun-
sel their husbands, and husbands their wives, never to
go to bed a second night, if the bowels have not been
properly moved during the day, particularly if they feel
heavy and drowsy. A few gentle doses of these fine
Pills will regulate the circulation of the blood, and all
dangerous symptoms.

Holloway's Pills are the best remedy known in the world
for the following diseases:—

ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT.

**Bad Legs, Ulcerous Sores, Bad
Breasts and Old Wounds.**

No description of wound, sore, or ulcer can resist the
healing properties of this excellent Ointment. The
worst cases readily assume a healthy appearance when-
ever this medicine is applied; sound flesh springs
up from the bottom of the wound, inflammation of the
surrounding skin is arrested, and a complete and per-
manent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflam-

mation.

These distressing and weakening diseases may with
certainty be cured by the sufferers themselves, if they
will use Holloway's Ointment, and closely attend to the
printed instructions. It should be well rubbed upon
the neighbouring parts, when all obnoxious matter will
be removed. A poultice of bread and water may some-
times be applied at bed time with advantage; and most
scrupulous cleanliness must be observed. If those who
read this paragraph will bring it under the notice of
such of their acquaintances whom it may concern, they
will render a service that will never be forgotten, as a
cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and
subduing pain in these complaints in the same degree
as Holloway's cooling Ointment and purifying Pills.
When used simultaneously they drive all inflammation
and depravities from the system, subdue and remove
all enlargement of the joints, and leave the sinews and
muscles lax and uncontracted. A cure may always be
effected, even under the worst circumstances, if the use
of these medicines be persevered in.

**Eruptions, Scald Head, Ringworm &
other Skin Diseases.**

After fomentation with warm water, utmost relief and
speediest cure can be readily obtained in all complaints
affecting the skin and joints, by the simultaneous use
of the Ointment and Pills. But it must be remembered
that nearly all skin diseases indicate the depravity of
the blood and derangement of the liver and stomach,
consequently, in many cases, time is required to purify
the blood, which will be effected by a judicious use of
the Pills. The general health will be readily improved,
although the eruption may be driven out more freely
than before, and which should not be promoted; perse-
verance is necessary.

**Sore Throats, Diphtheria, Quinsy,
Mumps & all other Derangements
of the Throat.**

On the appearance of any of these maladies the Oint-
ment should be well rubbed at least three times a day
upon the neck and upper part of the chest, so as to
penetrate to the glands, as salt is forced into meat:
this course will at once remove inflammation and al-
leration. The worst cases will yield to this treatment by
following the printed directions.

**Serofula or King's Evil and Swelling
of the Glands.**

This class of cases may be cured by Holloway's puri-
fying Pills and Ointment, as their double action of puri-
fying the blood and strengthening the system renders
them more suitable than any other remedy for all com-
plaints of a serofulous nature. As the blood is impure
the liver, stomach and bowels, being much deranged,
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following
cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted Sore Nipples.	
Burns.	Stiff Joints.	Sore Throats.
Bites of Mosquitoes.	Elephantiasis.	Skin Diseases.
and Sand-Flies.	Fistulas.	Scoury.
Coco-bay.	Glandular Swel-	Sore-heads.
Chicago-foot.	lings.	Tumors.
Corns (soft).	Lumbago.	Ulcers.
Cancers.	Piles.	Wounds.
Chilblains.	Rheumatism.	Yaws.
